

## SENIS Newsletter December 2021

Dear SENIS Partners and Customers,

In the next weeks, we are all going to say goodbye to another COVID year. Although, we started accepting the changes caused by the global pandemic, we hope very much, the next year will bring us all more personal contacts and meetings without cameras and internet platforms. We at SENIS would be delighted to meet you soon in person and present our new products and solutions, such as:

- our sensor chips for linear and angular positioning and current measurement applications;
- our 3-axis Hall magnetic sensor arrays;
- our magnetic field mapping solutions;
- our magnetometer solutions, including 1-, 2- and 3-axis Hall probes, analog and digital Teslameters/Gaussmeters, calibrated up to 9T and operating down to cryogenic temperatures.

We would be happy to welcome you anytime at our **ISO 17025 accredited calibration Laboratory** and our new demo rooms.

We are proud to announce that **Prof. Radivoje S Popovic**, the founder and CTO of SENIS received **the UK Magnetics Society Lifetime Contribution Award 2021** for his outstanding contribution to the field of magnetic sensing.

With our credo and persistence, our innovative and reliable solutions, and not least thanks to our great team, SENIS remains being your trustworthy partner and supplier of advanced products for your industrial and laboratory applications!

We look forward to our future continued collaboration and wish you, your teams, and your families a blessed Holiday Season and Happy New Year 2022!

Your SENIS Team
